

1. PRODUCT AND COMPANY IDENTIFICATION

- A) Product: Toner Black
B) Recommended use of the chemical and restrictions on use
 ○ Recommended use:
 ○ Restrictions on use: None
C) Manufacturer/Supplier/Distributor Information
 ○ Name: Samsung Fine Chemicals Co., Ltd
 ○ Address: 190 Yeochun-dong, Nam-gu, Ulsan, Republic of Korea
 ○ Emergency or information contact, Responsible department
 Tel: 052-270-6853
 Fax:

2. HAZARDS IDENTIFICATION

- A) Physical and Chemical Hazard : There are no significant hazards associated with this product.
B) Adverse Human Health Effects : There are no significant hazards associated with this product.
C) Environmental Effects : There are no significant hazards associated with this product.

3. COMPOSITION / INFORMATION ON INGREDIENTS

General Name	Chemical Name	CAS number	Content (%)
Styrene acrylic resin		25153-46-2	75~85
Wax		251550-30-0	5~10
Carbon black		1333-86-4	1~6
Silica		631-86-9	1~3

4. FIRST-AID MEASURES

- A) Eye contact
 Flush with water immediately and see a doctor if irritating.
B) Skin contact
 Wash immediately with plenty of water. Get medical attention if irritation develops.
C) Inhalation
 Remove from exposure to fresh air and gargle with plenty of water. Remove source of contamination and move individual to fresh air. If symptoms persist, seek medical attention.
D) Ingestion
 Rinse out the mouth. Drink one or two glasses of water to dilute. Seek medical treatment if necessary.
 Do not induce vomiting to rest in a well ventilated area.
 Never give anything by mouth to an unconscious.

5. FIRE-FIGHTING MEASURES

- A) Suitable (and unsuitable) extinguishing media
 Use extinguishing measures that are appropriate to local circumstances and the surrounding environment.
B) Extinguishing media : Water (Sprinkle with water), Foam, Powder, CO₂ or Dry chemical.

6. ACCIDENTAL RELEASE MEASURES

- A) Personal precautions, protective equipment and emergency procedures
Avoid inhalation, ingestion, eye and skin contact in case of accidental toner release.
- B) Environmental precautions and protective procedures
- Atmosphere Not available
 - Land Not available
 - Underwater Prevent product from entering drains.
- C) The methods of purification and removal
- Small spill
Remove source of ignition. Carefully wipe off with paper or wet cloth, avoiding inhalation of fine dust.
 - Large spill
Remove source of ignition and keep unnecessary and unprotected personnel away from area. Wear protective gear: respirator, rubber gloves, goggles. Do not use vacuum cleaner when a large amount is released. It, like most finely divided organic powders, may create a dust explosion. Fine powders may require special vacuum filters; damp mopping or washing is preferred. Wipe up remainder with a wet cloth. Sweep, mop or wipe up and contain for salvage or disposal. Avoid dust formation.

7. HANDLING AND STORAGE

- A) Precautions for safe handling
Never open the toner container. To avoid damage to cartridge and accidental contact with toner, keep out of reach of children. Try not to disperse the particles. Avoid inhalation of dust and contact with eyes. Keep away from excessive heat, sparks and open flames.
- B) Conditions for safe storage
Keep the toner container tightly closed and store in a cool, dry and dark place keeping away from fire. Keep away from children and Keep out of reach of children.

8. EXPOSURE CONTROLS / PERSONAL PROTECTION

- A) Control parameters (as total dust)
- OSHA-PEL (USA) : 15mg/m³
 - DFG-MAK (EC) : 6mg/m³
 - * Carbon black (CAS No. 1333-86-4)
 - NIOSH REL-TWA: 3.5 mg/m³
 - OSHA PEL-TWA: 3.5 mg/m³
 - ACGIH TLV-TWA: 3.5 mg/m³
 - ACGIH-TLV (USA) : 10mg/m³
 - Work safe-TWA(Austl.) : 10mg/m³
- B) Appropriate engineering controls
Use in a well ventilated area. Ventilator is not required when used in intended in printer,.
- C) Personal protective equipment
- Respiratory protection
Not normally required. For large spills, use dust respirator mask during cleanup.
 - Eye/Face protection
Not normally required. For large spills, use safety goggles during cleanup.
 - Skin protection
Not normally required. For large spills, use rubber gloves during cleanup.
 - Other: For use other than normal customer-operating procedures (such as in bulk toner processing facilities), goggles and respirators may be required.
- D) Hygiene Measures: Wash hands after handling

9. PHYSICAL AND CHEMICAL PROPERTIES

- | | |
|--|-----------------------|
| A) Appearance | Black Powder |
| B) Odor | Slightly plastic odor |
| C) Odor threshold | Not available |
| D) pH | Not applicable |
| E) Melting point/Freezing point | Not available |
| F) Initial boiling point and boiling range | Not applicable |
| G) Flashing point | Not applicable |

H) Evaporation rate	Not applicable
I) Flammability (solid, gas)	Not available
J) Upper/lower flammability or explosive limits	Not available
K) Vapor pressure	Not applicable
L) Solubility (water)	Negligible
M) Vapor density	Not applicable
N) Relative density	Not available
O) Partition coefficient(n-octanol/water)	Not available
P) Auto-ignition temperature	Not available
Q) Decomposition temperature	Not available
R) Viscosity	Not available
S) Formula mass	Not available

10. STABILITY AND REACTIVITY

- A) Chemical stability
This product is stable under normal use.
- B) Possibility of hazardous reactions
Hazardous polymerization does not occur.
- C) Conditions to avoid (e.g. static discharge, shock or vibration, etc.)
Strong oxidizing agents
- D) Incompatibility with various substances
Not available
- E) Hazardous decomposition products
Carbon monoxide, Carbon dioxide, unidentified organics.
During a fire, toxic gases may be generated by thermal decomposition or combustion.

11. TOXICOLOGICAL INFORMATION

- A) Information on the likely routes of exposure : Eye and skin contact, inhalation, ingestion
- B) Delayed, acute and chronic toxic effect for short and long term exposure
- Acute toxicity (Oral)
 - Rat ATE_{mix} > 1130.5mg/kg
 - Rat LD50 > 5000mg/kg
 - Practically non-toxic
 - Acute toxicity (Dermal)
 - Rat ATE_{mix} > 1124.3mg/kg
 - Rabbit LC50 > 5000mg/kg
 - Practically non-toxic
 - Acute toxicity (Inhalation: Gas)
 - Acute toxicity (Inhalation: Vapor)
 - Skin Corrosion/ Irritation
 - Serious Eye Damage/ Irritation
 - Skin Sensitization
 - Carcinogenicity
 - Carbon black is classified as a carcinogen by the IARC(possibly carcinogenic to humans, Group 2B).
 - In their evaluations of carbon black, organizations indicate that exposure to carbon black, per se, does not occur when it remains bound within a product matrix.
 - Not classified
 - Mutagenicity
 - Ames Assay : Negative
 - Reproductive toxicity
 - Aspiration Hazard
 - Not classified
 - Not available

12. ECOLOGICAL INFORMATION

A) Aquatic and terrestrial ecotoxicity	Not available
B) Degradability	
o Stability	Stable
C) Bioaccumulative potential	A relevant bioaccumulation of this substance is not expected
o Biodegradable	Not available
D) Mobility in soil	Not available
E) Other adverse effects	Not available

13. DISPOSAL CONSIDERATIONS

- A) Disposal method
Do not put toner or toner container into fire; heated toner may cause severe burns. Do not shred a toner container, unless dust-explosion preventing measures are taken. Finely dispersed particles form explosive mixtures in air. Disposal should be subject to federal, state and local laws.
- B) Disposal precaution
Do not incinerate toner and toner containers. Any disposal practice should be done under conditions which meet local, state and federal laws and regulations relating to waste (contact local or state environmental agency for specific rules).

14. TRANSPORTATION INFORMATION

This is not classified as dangerous goods according to international transport regulations.
Use precaution during transport in order to prevent accidental spill.
Not dangerous cargo.
Keep separated from foodstuffs.

15. REGULATORY INFORMATION

- A) US Federal Regulation
- o OSHA Hazard Communication Standard, 29CFR 1910.1200
 - Not regulated.
 - o Toxic Substance Control Act (TSCA)
 - All components of these toners have been manufactured in compliance with TSCA.
 - o RCRA (40 CFR 261)
 - Product or components are not listed.
 - o CERCLA/SARA Information
 - Not regulated.
 - o NTP Annual Report on Carcinogens
 - Not listed as an NTP carcinogen.
 - o California Proposition 65
 - Neither toner nor any of the components are listed as chemicals known to the State of California to cause cancer or reproductive system effects.
- B) European Regulation
- o Label information according to the Directive 67/548/EEC and 1999/45/ECC.
 - Symbol and indication: Not required
 - R-Phrase : Not required
 - S-Phrase : Not required
- C) Canada
- o Controlled Products Regulations
 - This product has been classified in accordance with the hazard criteria of CPR.
 - o Workplace Hazardous Materials Information System.
 - No toxicology information available.

D) Others

The information and recommendation were prepared on basis of the information we could obtain, however, any warranty shall not be given regarding the data contained and the assessment of hazards and toxicity. The information and recommendations are offered for the user's consideration and examination. Before use, please confirm not only the hazards and toxicity information but also the laws and regulations of organization, area and country where the products are to be used, which shall be given the first priority. Some information may be added afterwards. It is the user's responsibility to satisfy itself that the product is suitable for the intended use. Except to the extent required by law, re-publication or retransmission of this document, in whole or in part, is not permitted. Safe usage conditions shall be set up on each user's own responsibility.
